The *Journal of Applied Polymer Science* (Print ISSN 0021-8995; Online ISSN 1097-4628 at Wiley InterScience, www.interscience.wiley.com) is published weekly and semi-weekly in the fourth and fifth weeks of April, the fourth week of November, and the second week of December, four volumes per year, by Wiley Subscription Services, Inc., a Wiley Company, 111 River Street, Hoboken, NJ 07030.

Copyright © 2003 Wiley Periodicals, Inc., a Wiley Company. All rights reserved. No part of this publication may be reproduced in any form or by any means, except as permitted under section 107 or 108 of the 1976 United States Copyright Act, without either the prior written permission of the publisher, or authorization through the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, (978) 750-8400, fax (978) 750-4470. Periodicals postage paid at New York, NY, and at additional mailing offices.

The copyright notice appearing at the bottom of the first page of an article in the journal indicates the copyright holder's consent that copies may be made for personal or internal use, or for the personal or internal use of specific clients, on the condition that the copier pay for copying beyond that permitted by Sections 107 and 108 of the U.S. Copyright Law.

This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Such permission requests and other permission inquiries should be addressed to the Permissions Dept.

Subscription price: (Volumes 83–86, 2002) Print only: $13,495.00 in US, $14,055.00 in Canada and Mexico, $14,531.00 rest of world. Electronic only: $13,495.00 worldwide. A combination price of $14,170.00 in US, $14,730.00 in Canada and Mexico, $15,206.00 rest of world, includes the subscription in both electronic and print formats. All subscriptions containing a print element, shipped outside US, will be sent by air. Payment must be made in US dollars drawn on a US bank. Claims for undelivered copies will be accepted only after the following issue has been delivered. Please enclose a copy of the mailing label. Missing copies will be supplied when losses have been sustained in transit and where reserve stock permits. Please allow four weeks for processing a change of address. For subscription inquiries, please call (201) 748-6645 or e-mail: SUBINFO@wiley.com.

Postmaster: Send address changes to *Journal of Applied Polymer Science*, Caroline Rothaug, Director, Subscription Fulfillment and Distribution, Subscription Department, c/o John Wiley & Sons, Inc., 111 River Street, Hoboken, NJ 07030.

Advertising/Sales: Inquiries concerning advertising should be forwarded to the Advertising Sales Manager, c/o John Wiley & Sons, Inc., 111 River Street, Hoboken, NJ 07030, (201) 748-8832. Thermoplastics, 280, 1059, 1713, 1781
Thermosets, 676
Thermotropic liquid crystalline polymer, 1842
Thickness of polymer films, 671
Thin films, 290, 477, 523, 569, 714, 765, 1255

Time-resolved fluorescence, 464
Toluene diisocyanate, 347
Toughness, 510, 842, 1267, 2120
Transesterification, 1842
Transitions, 1016, 1995
Transmission electron microscopy, 2216
Transparency, 284
Transport properties, 394
1,3,5-Trihydroxy benzene phluroglucinol), 2272
Triple-orifice spinneret, 2151

Ultrahigh molecular weight polyethylene, 1602
Ultrasonic irradiation, 1277, 1811
Ultraviolet, 2052
Ultraviolet stabilizer, 2365
Uniform microspheres, 2230
Unstabilized high-density polyethylene, 671
Urethane group, 1858
UV radiation, 1774
UV-crosslinking, 182
UV-lamps, 182
UV-laser, 182

Vinyl azide, 1852
Viscoelastic properties, 31, 121, 138, 149, 1016, 2130, 2136
Viscoelastic property, 2106
Viscosity, 192, 258, 1354, 1484, 1511, 1890
Viscosity coefficient, 1001
Viscosity ratio, 83
Voids, 244
Volume strain, 441
Vulcanization, 24, 1194, 1405, 1723, 2193

Waste recycling, 2204
Water soluble polymers, 759
Water-soluble chitosan–heparin complex, 1784
Water-soluble polymers, 386, 452, 684
WAXS, 1329
Weathering, 931
Whisker, 1129
Wool, 2372

X-ray, 945, 1085, 1414
X-ray diffraction, 2216

Zeolite dispersions, 311
Ziegler–Natta, 1421
Ziegler-Natta polymerization, 358
Zone drawing, 1519
